

To Provide insight for enhancing Wealth

Efftronics Systems Pvt Ltd With the first steps in 1985, privately held company has attained the distinction of being the only company in the coastal belt of Andhra Pradesh, **offering embedded and software solutions.**

Driven by enthusiastic entrepreneur, **D Rama Krishna, a REC (Surat) and IIT (Madras) Alumni**, Efftronics is a Vijayawada-based **Product Development company**. Efftronics has emerged as a technology leader in **Data Acquisition Systems, Data Dissemination Systems, Multilingual Graphics and Engineering Solutions.**

With employee strength of over **600**, including a strong & experienced R&D Employee strength of around 150 engineers, Efftronics has been able to develop Firmware, Hardware & Software Innovative products and solutions to our customers which enable them to enhance their wealth.

We are one of the few corporate to achieve “**R&D**” certification from **DSIR (Directorate of Scientific & Industrial Research)**, an apex body of research as authorized by Government of India.

Please do visit www.ffftronics.com for more details about us.

In part of our strategy, to further strengthen our R&D Team we plan to recruit students from Reputed Colleges & Institutions and hence, we felt that we could conduct a Placement drive for these students at your campus, where we are hopeful in finding the brightest talent available.
